For instance, solve for fill-in-the-blank questions first, as they tend to be more obvious than others.Make a first pass in the other direction, usually starting with 1 Down, solving for the most obvious clues first and making sure there aren't discrepancies. Find some obvious clues, and make sure they fit together when written out.Do your second pass, now with more letters to help you figure out new crossword answers. It's a good idea to start from the top left and fill in words with some letters already filled in. This in-crossword help will give you more clues. If you're still struggling, consider trying our anagram solver to help you find words with the letters you have.Repeat these steps, taking breaks occasionally to look at the crossword quiz answers in a new way. Do this until you're done. Keep considering the theme, look out for anagrams, and consider consulting a synonym and antonym finder to find new words that are similar to the clues. Remember to think outside of the box when trying to fill in those boxes!Once you've completed the whole crossword game, check your answers. It's possible, though rare, that your crossword clues and answers fit but don't match the newspaper's answers. Tips for Understanding Crossword Clues It can be hard to understand a crossword clue because crossword-writers are absolutely notorious for being cryptic. A good crossword player is typically a master riddle-solver, as one has to really think outside of the box to figure out some of these more difficult hints. Here are a few crossword-solving tips: Question marks often imply wordplay or puns. Usually, crossword clues are written with no punctuation at all, so if you see a question mark, it implies that the answer won't be as straightforward as you'd think. Think of puns, wordplay, homonyms, and less-obvious answers.Tenses in clues are written to match the answers. If you're searching for crossword synonyms, stick to the same past, future, or present tense that the clue is in. For instance, the clue "jumped" would not result in "hops" or "hopping" but "hopped."Consider abbreviations carefully. If a clue is abbreviated, the answer will likely be, too. Memorize popular abbreviations, including names of events like WWI, military abbreviations like NCO, and titles like Mr. and Ms. Also memorize common suffixes, as they're quite popular among crossword writers.Master "crosswordese." Learn some of the most commonly used crossword answers. See if you can fit any of the "crosswordiest" words, or words not found in everyday speech but often used in crosswords, in your puzzle.Fill-in-the-blank questions are typically easiest. Usually, you'll see a common idiom, phrase, or pop culture reference that's only missing one section. Keep in mind, though, that non-native English speakers might struggle with this because phrases can be so regional and colloquial; see this list of common idioms if you're struggling.Pop some pop culture references into your head. Past and present hot topics are fair game in crosswords, so keep in mind all of those hit movies, TV shows, and books, including actors, directors, characters, and writers. If there's a big awards show like the Emmys, Tonys, or Oscars, a newspaper crossword is likely to reference it. If a creator or politician is doing their big media circuit, you'll sometimes see them appear in crosswords. But not everything is recent! Consider learning more trivia to have more answers in the back of your brain.Consider the all-important theme. Crossword writers frequently use themes or even tell stories with their clever puzzles. For instance, if the theme is ballet, an easy answer to "point of pain for dancers" might be "toe."Consult a crossword dictionary. Some people keep crossword puzzle dictionaries in their pockets while filling out physical copies. You can use our online crossword synonyms dictionary to find some great ideas. (It's not a crossword cheat when you're desperate for one hint!)For the love of your sanity, use a pencil. If you're using physical paper instead of an online crossword app, use a pencil and eraser. Mistakes, misinterpretations, and confusion are likely to arise, even if you're a seasoned pro.Start with an easier puzzle, then work your way up. If you're looking up Monday and Tuesday NYT crosswords' cheats, don't discourage yourself by trying a Thursday grid. Easy puzzles are a great place to start, with crosswords later in the week getting progressively harder. Don't expect to be a wiz at a difficult crossword right off the bat! Tips for Solving Hard Puzzles and Cryptic Crosswords The most important tip is to practice. Max Deutsch took a month to master the Saturday New York Times crossword, and it required consistent practice, about 46 hours in total. He used a lot of memorization with letter training, memorizing crossword answers and clue pairings and completing a sizable number of puzzles. Practice is a huge piece of the puzzle but not the only piece, as harder puzzles like cryptic crosswords require divergent and flexible thinking. What Are Cryptic Crosswords? Cryptics are different types of crosswords with even more tricky wordplay, and the clues are often deliberately misleading. They tend to be more popular in Britain and the greater commonwealth of Australia, New Zealand, and Canada. They can also be found in a few publications in America, like The New Yorker. Note: Not all British crosswords are cryptic. British-style crosswords tend to have more black squares in a particular pattern than American-style crosswords; cryptic crosswords are a separate thing! How Do You Solve Cryptic Crosswords? Cryptic crosswords are like normal crosswords, but the clues tend to involve wordplay and also have very convoluted, intentionally confusing hints. If you're doing a cryptic crossword, know that the definition is typically hiding in plain sight, and don't lose heart! Depending on the difficulty and the specific newspaper editor, you might find cryptic crossword clues with weird traits like these: Look for anagrams, where you simply need to rearrange letters to find the answer. For instance, "cash trims" would be "Christmas."Many editors like homophones, which are words that sound like other words but are spelled differently. "Their," "they're," and "there" are homophones.Reversals involve reversing the letters of the clue to get the answer. The reverse of "era" is "are," for example.Deletions involve deleting one or two letters to get a different answer. For instance, "mend" minus a letter could be "end" or "men."Containers imply that you'll need to insert a word inside of another word, usually indicated in the clue by words like "within" or "surrounding." Of course, it can even get harder, like metapuzzles, crosswords that unlock even more word puzzles, or Schrodinger puzzles, in which clues have more than one correct answer. Once you start getting the hang of being a crosswords-solver, you can start to seek out some of these more difficult puzzles!
